

ROCK STAR BAND CAMP

ABOUT US:

The Rock Star Band Camp songwriting staff, musicians, music instructors, and producers provide an in-depth learning experience in order for our students to appreciate important musical genres, create their own meaningful songs, and perform effectively in front of live audiences. The results are focused and fearless musical leaders of tomorrow, able to conquer the world of recorded music and live performance!

Our popular year-round course, "Guitar Heroes," offers music students instant playing skills through a fun and interactive curriculum. Through riffs, scales, and tips from our instructors, student guitarists of all levels are able to play an entire rock song as a band within each 1-hour session.

@Home Lessons by Rock Star Band Camp allows our instructors to design customized curriculums outside the classroom, resulting in music lessons that pinpoint a student's strengths while developing talent.

Rock Star Band Camp is also proud to offer Enrichment Programs in Jazz, Folk, and World Music at Public and Private schools, Camps, and After-School programs in New York City and Long Island.

In addition, Rock Star Band Camp offers amazing Summer Programs such as "Recording Camp" and "Rock Camp," giving students an authentic recording studio experience, while teaching them the fundamentals of songwriting, production, and live performance. With programs like these, Rock Star Band Camp is definitely not your average "Band Camp."

ADDITIONAL INFORMATION:

Rock Star Band Camp was founded by New York singer/songwriter and producer Amanda Halsey in response to the growing contemporary music market designed for teenagers. Inspired by the popularity of rock-influenced video games and the film "School of Rock," Ms. Halsey created her own curriculum to guide young musicians interested in the world of contemporary music, from hip-hop to jazz and rock. The awesome results yielded a successful Hamptons Summer Program followed by year-round courses in guitar, voice, and studio recording spanning Long Island and New York City.
